[REDACTED] Magee Carpet Company, West 5th Street, Bloomsburg, Pennsylvania (PA), telephone number 717-784-4100, was contacted at his place of employment by Special Agent (SA) [REDACTED] Federal Bureau of Investigation (FBI), Philadelphia, PA Division.

Prior to interview [REDACTED] was advised of the nature of the intended interview relative to the attempt to identify carpeting sample obtained from the residence of Wayne Bertram Williams, suspect in murders in Atlanta, Georgia, in an effort to identify or eliminate Magee Carpet Company as the manufacturer of Williams' carpet.

[REDACTED] furnished the following information:

[REDACTED] He advised that Magee Carpet Company presently, since June 1976, manufactures only auto fabrication and automobile carpeting. Prior to that date, Magee Carpet Company manufactured residential and commercial carpeting for approximately 90 years. [REDACTED] stated that Magee Carpet Company, in June 1976, sold the Magee Carpet name and rights to manufacture residential and commercial carpeting to Shaw Industries, Dalton, Georgia. In addition to the carpeting manufacturing plant located in Bloomsburg, PA, Magee Carpet Company operated a plant in Perry County from 1966 to closing in 1976. *b7c*

[REDACTED] was shown sample carpeting obtained from the residence of Wayne Bertram Williams, at which time he advised that he does not recall Magee Carpet Company ever manufacturing any residential or commercial carpeting identical to sample specifications. In addition he advised that he does not recall Magee Carpet Company ever making any carpeting that cheap.

[REDACTED] furnished Magee Carpet Company voluminous records of carpet, product control specifications of all carpet

manufactured by that company from 1963 to closing of production in 1976, which was reviewed by SA [REDACTED] and [REDACTED] b7c

During review of Magee Carpet Company product control specifications, it was determined that that company never utilized Wellman 181-B, nylon fiber manufactured by Wellman Company, Johnsonville, South Carolina, in their production of carpeting. Magee Carpet Company manufactured various carpet lines utilizing 100% nylon strand fiber under the tradename of:

Dupont 501
Antron II
Dupont Chemstran
Cumuloft
Caprolan

The majority of nylon fiber carpet manufactured by Magee Carpet Company was in the loop pile, carved or tweed pattern.

Magee Carpet Company records further reflect 99% of all carpeting manufactured by that company to be in the 20-ounce to 50-ounce per square yard pile weight category, which does not include the weight of any backing material used. Majority of carpet manufactured in the above category was determined to be within the 25-ounce to 35-ounce per square yard pile weight category. Cut pile carpeting as furnished in Williams' sample was of a small production category, and those listed in the carpet production control specifications did not compare to specifications listed of Williams' carpet obtained from his residence.

[REDACTED] advised, and through verification of review of product control specifications for Magee Carpet Company, that Typar latex chemical bonding agent was utilized as a primary backing in the manufacture of carpeting by Magee Carpet Company on a small infrequent basis. [REDACTED] estimates that Magee Carpet Company utilized the Typar primary backing only in approximately 10% of the company's total production. Jute secondary backing was used extensively by Magee Carpet Company in the 7-ounce, 9-ounce and 10-ounce per square yard weight. He indicated that Magee Carpet Company, on most occasions, utilized 9-ounce or 10-ounce jute backing as the secondary backing in the manufacture of their carpeting. Seven-ounce jute secondary backing is b7c

10

considered standard throughout the carpeting industry. In addition Magee Carpet Company utilized, in approximately 50% of its later years of carpet production, Polyback secondary backing in its carpet manufacturing.

█████ stated that while in the carpet manufacturing business Magee Carpet Company purchased considerable amounts of their yarn from both Integrated Products, Rome, Georgia, and Modern Fibers, of Calhoun, Georgia. Magee Carpet Company would then normally dye the fiber yarn to their own manufacturing specifications. etc

Examination of carpet samples manufactured by Magee Carpet Company with comparison of carpet sample obtained from Williams' carpet was determined not to be identical in color variation, pile height, finish weight and other specifications.

█████ advised that carpeting manufacturing has diversified to the point that formerly manufacturing of carpeting and all processes which included the dying of the yarn, weaving and primary and secondary backing was done by the carpet manufacturer. He stated that today, other than the larger carpet manufacturers that these stages of production are subcontracted to various small companies who specialize in one stage of manufacturing. etc

█████ after examination of Williams' sample carpet, stated that he felt that the sample carpet in question was of a relatively new manufacturing date. His feeling being that the jute backing had not had the opportunity to discolor with age, which is a normal occurrence. etc

[REDACTED] stated that the primary backing of Williams' sample carpeting is Typar which was also utilized in the carpet manufacturing by Magee Carpet Company; however, only in approximately 10% of total carpet manufacturing. In addition, he further advised that the Typar used in Williams' sample carpeting is of a lighter color than utilized by Magee Carpet Company.

He stated that Magee did manufacture carpeting utilizing seven-ounce, nine-ounce and ten-ounce jute secondary backing; however, approximately half of all production utilized Polyback as the secondary backing.

Magee Carpet Company did not manufacture 100% nylon strand carpeting in a solid color cut-pile weave. Most of

CARPET IN QUESTION FROM SUBJECT'S RESIDENCE AND FIBERS RECOVERED FROM VICTIMS' BODIES ARE MICROSCOPICALLY THE SAME. THE FIBER IN QUESTION IS MANUFACTURED BY WELLMAN COMPANY, FROM JOHNSONVILLE, SOUTH CAROLINA. IT IS REFERRED TO AS WELLMAN 181-B, NYLON FIBER.

THE WEST POINT PEPPERELL CARPET COMPANY HAS MADE COMPARATIVE TESTS AGAINST THE CARPET REMOVED FROM SUBJECT'S RESIDENCE AND INDICATED THAT THE CARPET APPEARS TO BE THE SAME AS THEIR "LUXAIRE" TYPE MANUFACTURED BY THEM IN 1971 AND 1972. THIS CARPET IS ENGLISH OLIVE GREEN AND IS 100 PERCENT 181-B NYLON FIBER. THE FIBER ITSELF WAS MANUFACTURED USING 181-B BETWEEN 1967 AND 1974. THE CARPET HAS A PRIMARY BACKING WHICH IS SYNTHETIC, CARRYING THE COMMERCIAL CHEMICAL NAME OF "TYPAR." THE SECONDARY BACKING IS JUTE. THE PILE HEIGHT IS 11/32 SECONDS OF AN INCH. THE STITCH COUNT FOR THE SUBJECT'S CARPET IS 31 AND ONE HALF/3. THE GAUGE COUNT IS 6.5 PER INCH. THE FINISHED WEIGHT OF THE SUBJECT'S CARPET IS 18.05 OUNCES PER SQUARE YARD.

THE WELLMAN FIBER FOR EVENTUAL PRODUCTION OF CARPETING. IT IS NOT KNOWN AS TO WHAT COLOR DYES WERE USED BY THESE COMPANIES, NOR WHETHER THE FIBER WAS BLENDED WITH OTHERS TO PRODUCE A FINAL PRODUCT.

THE BELOW LISTED COMPANIES PURCHASED THEIR YARN FROM EITHER INTEGRATED PRODUCTS, ROME, GEORGIA; OR MODERN FIBERS OF CALHOUN, GEORGIA. THEY WOULD HAVE PURCHASED THE YARN WHICH WOULD BE SUITABLE FOR FINAL PRODUCTION OF THE CARPET.

IT SHOULD BE NOTED THAT THERE IS A POSSIBILITY THAT THESE COMPANIES ARE NOW OUT OF BUSINESS. HOWEVER, IT IS NECESSARY TO CONTACT THESE COMPANIES TO RESOLVE AS TO WHETHER THEY DID OR DID NOT PURCHASE THE FIBER AND PRODUCE CARPET AS DESCRIBED ABOVE.

RECEIVING OFFICES ARE REQUESTED TO CONDUCT THE FOLLOWING INVESTIGATION:

CONTACT EACH OF THE BELOW LISTED COMPANIES. ASCERTAIN THE FOLLOWING INFORMATION; AND WHERE POSSIBLE, OBTAIN ADDITIONAL SPECIFIC DATA AS TO CARPET MANUFACTURER AND AS TO RETAIL DISTRIBUTOR:

- 1) ASCERTAIN IF "TYPAR" SYNTHETIC WAS PRIMARILY BACKING USED IN PRODUCTION IN CONNECTION WITH 181-B.
- 2) DETERMINE THE PRIMARY AND SECONDARY BACKING USED.

CARPETING IN THE ATLANTA AREA THROUGH MANUFACTURERS AND RETAILERS.

CARPET IN QUESTION FROM SUBJECT'S RESIDENCE AND FIBERS RECOVERED FROM VICTIMS' BODIES ARE MICROSCOPICALLY THE SAME. THE FIBER IN QUESTION IS MANUFACTURED BY WELLMAN COMPANY, FROM JOHNSONVILLE, SOUTH CAROLINA. IT IS REFERRED TO AS WELLMAN 131-B, NYLON FIBER.

THE WEST POINT PEPPERELL CARPET COMPANY HAS MADE COMPARATIVE TESTS AGAINST THE CARPET REMOVED FROM SUBJECT'S RESIDENCE AND INDICATED THAT THE CARPET APPEARS TO BE THE SAME AS THEIR "LUXAIRE" TYPE MANUFACTURED BY THEM IN 1971 AND 1972. THIS CARPET IS ENGLISH OLIVE GREEN AND IS 100 PERCENT 181-B NYLON FIBER. THE FIBER ITSELF WAS MANUFACTURED USING 181-B BETWEEN 1967 AND 1974. RE ATLANTA TELETYPE TO THE DIRECTOR DATED JULY 24, 1981.

ON AUGUST 3, 1981, [REDACTED] CRAFT RUG
MILLS, LINE AND IRON STREET, EASTON, PA, ADVISED THAT HIS COMPANY
DID NOT MANUFACTURE CARPET SIMILAR TO THE SAMPLE FURNISHED BY
ATLANTA AND DESCRIBED IN REFERENCED COMMUNICATION.

[REDACTED] DID OBTAIN THE WELLMAN 131-B NYLON FIBER YARN FROM
MODERN FIBERS, CALHOUN, GA, IN 1967, BUT PRODUCED CARPET UTILIZING
THIS YARN WITH A PRIMARY BACKING KNOWN AS POLYBACK WHICH WAS MANU-
FACTURED BY PETROCH MILLS, ATLANTA, GA, AND A SECONDARY BACKING OF
SIX OUNCE JUTE.

47

[REDACTED] DID ADVISE THAT HE HAD SEEN CARPET SIMILAR TO THE PROVIDED SAMPLE AND THOUGHT THAT IT WAS MANUFACTURED BY THE JONAS CARPET COMPANY, DALTON, GA.

ON THE SAME DATE, [REDACTED] J. E. SNYDER SALES COMPANY, CHALFONTE, PA, WAS TELEPHONICALLY CONTACTED FROM THE OFFICE OF [REDACTED] CRAFT MILLS, EASTON, PA. [REDACTED] ADVISED THAT HE WAS A FORMER REPRESENTATIVE OF INTEGRATED PRODUCTS COMPANY AND MODERN FIBERS COMPANY, CALHOUN, GA. HE WAS VERY FAMILIAR WITH THE WELLMAN 181-B NYLON FIBER AND THROUGH HIS RECORDS DETERMINED THAT HE HAD SOLD 25,000 POUNDS OF THE YARN TO CRAFT RUG MILLS, EASTON, PA, ON AUGUST 15, 1967. HE WAS UNABLE TO DETERMINE ANY OTHER PURCHASES OF THE WELLMAN 181-B YARN IN PRODUCTION QUANTITIES. HIS RECORDS DID SHOW SMALL SHIPMENTS OF THE YARN TO MC GEE CARPETS, BLOOMSBURG, PA, BUT ONLY IN QUANTITIES LARGE ENOUGH FOR SAMPLE PRODUCTION. etc

[REDACTED] ADVISED THAT [REDACTED] CALHOUN, GA, TELEPHONE NUMBER [REDACTED] WAS THE DIRECTOR OF DEVELOPMENT AT THE MODERN FIBERS COMPANY, CALHOUN, GA, AND WAS RESPONSIBLE FOR THE DEVELOPMENT OF THE YARN UTILIZING THE WELLMAN 181-B NYLON FIBER. HE STATED THAT [REDACTED] MAY BE HELPFUL IN LOCATING OTHER PURCHASES OF THE 181-B YARN.

PURPOSE: To request that a Physical Science Technician from the Microscopic Analysis Unit (MAU) be allowed to travel to Atlanta, Georgia, and assist SA [REDACTED] in the preparation of physical evidence in the above referenced case.

b7c **DETAILS:** SA [REDACTED] is in Atlanta assisting the Georgia Crime Laboratory in examining and preparation of evidence that has been collected during the investigation of this case. He has advised that there is a very urgent need for a Physical Science Technician to assist in the examination of debris that has been collected during the investigations of this case, but has never been subjected to laboratory examinations. SA [REDACTED] has requested that the technician be made available for a two week period (maximum) and that there may be overtime involved (approximately 2 hours/day) for the technician. It is noted that even though overtime is involved, the over-all cost should be less than having additional per diem for the technician. Physical Science Technician [REDACTED] is available for this assignment and is competent to assist SA [REDACTED] in this case. If approved, he will depart Washington, D. C., on 8/17/81.

RECOMMENDATIONS:

1. That Physical Science Technician [REDACTED] be authorized to travel to Atlanta on 8/17/81, and assist SA [REDACTED] in this case. *etc*

Enclosed for the Bureau, under separate cover, is one copy of diagram of subject's residence and surrounding property.

A tentative trial date has been set for captioned matter of October 5, 1981, in Fulton County Superior Court, Atlanta, Georgia.

Assistant Fulton County District Attorney Gordon Miller has advised that he will attempt to introduce a sketch of the floor plan and surrounding property of subject's residence in order to demonstrate the possibility that subject could have moved from the exterior of the residence through a rear entrance directly to his bedroom without drawing the attention of his parents. In that regard, he requested that the FBI prepare such a floor plan sketch, utilizing enclosed sketch made on June 3, 1981 as a result of the execution of a local search warrant.

The exact measurements as to the size of the rooms is not relevant and Miller does not anticipate it will become a matter subject to testimony in court. The accuracy as

to the location and the approximate size of the rooms is accurate, per observations by SA [REDACTED] of the Atlanta Division, made on June 3, 1981. 6-90

The enclosed diagram depicts several numerical and alphabetical designations in various rooms throughout the residence. In the exhibit prepared by the Bureau, it is requested that these designations be omitted. The rooms, however, should be identified by name as printed on the enclosed diagram. Although not specified in writing on the diagram, there are two bathrooms in the residence. They are identified on the enclosed diagrams by letters "G" and "E" and appear side by side in approximately the center of the floor plan. Locations of trees and shrubs, as well as the proximity of Penelope Road to the front of the residence should also be included on the exhibit.

REQUEST OF THE BUREAU

EXHIBIT SECTION:

The Exhibit Section is requested to prepare a display-size diagram of subject's residence for court display purposes, noting that it will be necessary for Fulton County Authorities to review the above exhibit several weeks prior to actual court usage date.

During the upcoming trial for subject Williams, the Fulton County prosecutor's office intends to use an aerial photographic layout of the Chattahoochee River as it runs south from the James Jackson Parkway Bridge below the section in Fulton County where it crosses under Bankhead Highway. The photographic layout will be a total of 12 feet in length and approximately three feet in width. It will also be black and white.

For courtroom purposes and for instructions of the jury, the Fulton County District Attorney's Office intends to have a witness from the Fulton County Police Department identify the various landmarks which will appear in the aerial photograph. He will then be asked to place identifying labels on the photograph for jury edification purposes.

The areas which will be identified as landmarks in the photograph are as follows:

- 1) Chattahoochee River;
- 2) I-285 (N.E.);
